

Department of Mechanical and Aerospace Engineering at the University of Florida

The University of Florida

- The oldest and largest of Florida's public universities

Originating in 1853 and chartered by legislative mandate in 1905, it has grown from its 12 original buildings into a 2,000-acre main campus featuring more than 900 buildings and \$580 million in facilities.

- One of few universities in the United States that offer all disciplines on one contiguous site

Its 17 colleges, five schools and 136 departments offer more than 100 majors in 94 undergraduate programs, Its graduate school coordinates 123 master's degree programs and 76 doctorate programs in 87 schools and departments.

- Recognized as one of the best universities in the nation

UF's research, service and education agencies attract more than \$458 million in grants, ranking it 18th in the nation among public and private research universities according to the MIT Technology Review's "Technological Strength Ranking."

- One of the ten largest universities in the United States

With more than 48,000 students and over 4,000 full-time faculty from around the world (plus numerous other researchers, teaching assistants and support staff)

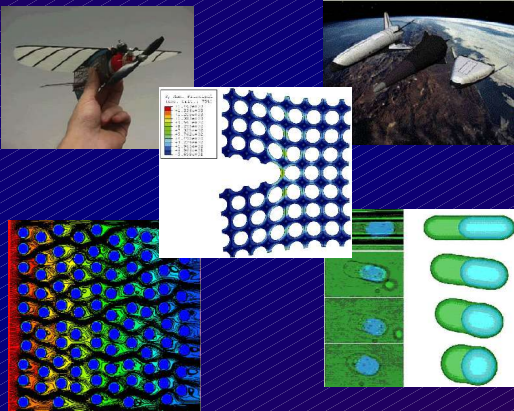

MAE in a few words

The Department of Mechanical and Aerospace Engineering (MAE) has longstanding traditions of collaboration of its 50 faculty and 275 graduate students with academic, industrial and government researchers worldwide. It provides a climate of lively and effective development of symbiotic research and teaching programs.

Our graduate programs provide a wide variety of research opportunities in three main areas:

- Dynamics, Systems and Control (DSC)
- Solid Mechanics, Design and Manufacturing (SMDM)
- Thermal Science and Fluid Dynamics (TSFD).

E² International Program

E² International is a program initiated by our department for collaboration between French and UF faculty. In addition, it offers the possibility of joint research and joint degrees.

Get the chance to learn more about our department and discover the opportunities for collaboration, research, and studies at the University of Florida at our RECRUITING DAY in Paris, December 13, 2004.

Please, register online at www.mae.ufl.edu/parisevent before December 1, 2004.
